**Open Access**

# Thank you to Microbiome's peer reviewers in 2013

Jacques Ravel<sup>1\*</sup> and K Eric Wommack<sup>2\*</sup>

We are deeply grateful to all of the names listed below, who have reviewed manuscripts submitted to *Microbiome*. The success of our first year could not have been possible without your help. Looking forward to 2014, we see great things on the horizon. All the 2013 articles were recently listed and will soon be directly accessible through PubMed. This should serve to boost the increases we've seen in the quality and number of submissions to *Microbiome*. We hope that you all will continue to support the journal as a reviewer or, better yet, a contributing author.
